3rds X11 RUGBY

This was an excellent season for the 3rds XII Rugby. The weather was pretty bad which meant we had to cancel half of our matches, however the squad was extremely focused and committed in training. The first match was a learning curve for both the players and myself as I did not know how the boys would react in a game situation. We got off to a great start narrowly beating Newlands. It was a close game which we learnt a lot from. This gave the whole team confidence for the rest of the season. Our next match at Dulwich College was also an even encounter with very little between the two sides; However the Dulwich scrum proved too strong and eventually this proved to be the decisive factor. Our last game was away to St Andrew's which we won in style. It was certainly our best all round team performance.
