Potty on Potter

ABC film crew interview pupils

Following on from the Potter article in a mid June edition of the London 'Daily Express', in which Vinehall featured as the sort of prep school that has been immortalised by Harry Potter's adventures in a boarding school, ABC News caught the Rowling Bandwagon on Thursday 19 June. ABC, one of America's largest television and news corporations, invaded Vinehall to film footage and interview pupils and English staff about the release of the next installment in the Potter saga. The front Hall and boarding house were snaked with wires, emblazoned by lights and peopled by odd-looking masters in long black gowns as Vinehall and Hogwarts become one. The footage was used as the binding thread when ABC and, later, BBC News aired their reports on the boy wizard phenomenon.

Kevin Doble

Vinehall School

2002-2003

**Chef visited the
Pre Prep**

He told us that he learned to cook at college.

He said that every day he cooks 90 breakfasts, 500 lunches and 120 suppers.

His favourite food is Indian and he comes to Vinehall on a motor bike.

Visit of PC Hicks

PC Hicks came to visit the Reception classes. The children enjoyed trying on a variety of police hats and jackets. They were keen to find out about all the different jobs that the police are involved in and how they help us.

Visits

Vinehall School
2002-2003

Vine makes it to the South Pole.

Tom Avery visited Vinehall to tell of his adventure

Tom Avery, at 27 years old, became the youngest man to walk to the South Pole. His tremendous achievement has been watched with great pride by his family and friends who live in this area.

Tom left Vinehall in 1989 to go to Harrow and his sister Jessica and younger brother Leo were also at Vinehall.

We enjoyed his inspiring talk and slide show.

Mr David Hanson, Director of Education, IAPS,
Deborah Yonge of ISCS and
Mr Adrian Underwood, General Secretary of BSA
visited Vinehall this year.
