

Sub Aqua

Mr Lawless organised a 'Try Dive' in the school pool to give the children a taste of this exciting sport. The children helped put the SCUBA kit together and then each had a few minutes exploring the bottom of the pool. No fish or wrecks were found but a great time was had by all. Children from the age of 10 can now qualify with a certificated organisation as P.A.D.I. Junior Open Water Divers, enabling them to dive anywhere in the world with a certified instructor, opening up a whole new world to them.
