

Archery

Archery is a challenging sport which requires both physical and mental skills and good co-ordination and concentration is essential to achieve consistent results.

The archers are set achievement goals and are awarded with certificates and badges when each step on the achievement ladder is reached. During the last year, several of them have reached all five steps.

Alec York has improved to a very competent level and should continue to do well. In the past there have been some notable successes with some pupils joining a local club and then going on to represent the Sussex county.
