

## START OF TERM CHECK LIST

All labelling should be in permanent marker and not stick on labels which peel off very quickly. Scratching on initials and numbers works well on all plastic items, including pens. Children should avoid bringing any toy or item to school which has any financial or emotional value. If children are allowed to bring a toy on a trip, for example, then it should be clearly labelled and locked in their locker while not in use. All clothing should be labelled – including underwear!
